

THE
STONE
MANTEL
COLLECTION

The fireplace is the focal point of any room and can set or enhance the style for furnishings and fabrics.

Each Classic mantel, be it made in timber, marble or stone, is manufactured to order by local skilled craftsmen dedicated to producing the highest quality fireplaces available. Crafted from the finest quality Portuguese Limestone each design illustrated in this brochure can be altered to suit your individual requirements or alternatively we offer a bespoke service to create a unique look for your home.

Our manufacturing facility is located in the heart of the Sussex countryside close to the historic towns of Arundel and Chichester. By prior appointment visitors are very welcome to see our production process, materials used and the quality of the finished products.

Enjoy browsing through this brochure and imagine the years of pleasure and added value a Classic mantel will give in your home.

CLASSIC STYLE

The classic lines of the Roxburgh mantel create the impression that it was originally installed in Edwardian times when the house was built.

We are extremely grateful to customers who have allowed us to photograph their homes.

A range of hand carvings can be added to many of the mantels in this range. The fine grain in limestone gives our stonemasons the opportunity to create very detailed engraving.

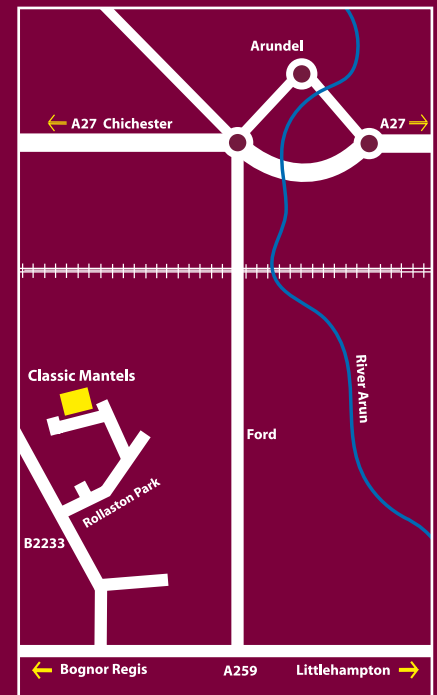

Limestone is formed over millions of years from layers of marine life. This results in the natural markings and defects which form the character of the stone and means that no two mantels will be the same. Although we use only the best quality honed materials, slight variations in both colour and texture are unavoidable.

We strongly recommend that your fireplace be inspected before it is installed and fitted by a professional fireplace installer. We regret that we cannot take responsibility if this caution is not followed.

Every stone mantel is sealed before leaving our factory but it must be appreciated that limestone is a very porous material and should be treated with the same care as marble and timber.

We are committed to continuous development and improvements to our products and therefore reserve the right to alter specifications without prior notice. The colour and shade reproduction in this brochure is as accurate as the printing process allows and should not be used as an accurate guide.
